CEBP Focus: Validating Colorectal Cancer Screening Behaviors

Validation of Colorectal Cancer Screening Behaviors. Jane G. Zapka ........................................... 745

Accuracy of Self-Reported Cancer-Screening Histories: A Meta-analysis. Garth H. Rauscher, Timothy P. Johnson, Young Ik Cho, and Jennifer A. Walk ............................................................. 748

Reliability and Validity of a Questionnaire to Measure Colorectal Cancer Screening Behaviors: Does Mode of Survey Administration Matter? Sally W. Vernon, Jasmin A. Tiro, Rachel W. Vojvodic, Sharon Coan, Pamela M. Diamond, Anthony Greisinger, and Maria E. Fernandez ....................................................... 758

Validation of Self-Reported Colorectal Cancer Screening Behavior from a Mixed-Mode Survey of Veterans. Melissa R. Partin, Joseph Grill, Siamak Noorbaloochi, Adam A. Powell, Diana J. Burgess, Sally W. Vernon, Krysten Halek, Joan M. Griffin, Michelle van Ryn, and Deborah A. Fisher .................................................. 768

Validity of Four Self-reported Colorectal Cancer Screening Modalities in a General Population: Differences over Time and by Intervention Assignment. Resa M. Jones, Steven J. Mongin, DeAnn Lazovich, Timothy R. Church, and Mark W. Yeazel ................................................................. 777

The Effects of Survey Mode and Asking About Future Intentions on Self-Reports of Colorectal Cancer Screening. Timothy J. Beebe, Sarah M. Jenkins, Kari J. Anderson, Michael E. Davern, and Todd H. Rockwood .................................................. 785

Validation of Self-reported Colorectal Cancer (CRC) Screening in a Study of Ethnically Diverse First-Degree Relatives of CRC Cases. Roshan Bastani, Beth A. Glenn, Annette E. Maxwell, Patricia A. Ganz, Cynthia M. Mojica, and L. Cindy Chang ................................................................. 791

Point/Counterpoint

The Case for a Gender-Neutral (Universal) Human Papillomavirus Vaccination Policy in the United States: Point. Anna R. Giuliano and Daniel Salmon .................................................. 805

Human Papillomavirus Vaccination Should Be Offered to Young Males: Counterpoint. Cornelia L. Trimble .................................................. 809

Minireview

Human Papillomavirus in Cervical Cancer Screening: Important Role as Biomarker. Gaëlle A.V. Boulet, Caroline A.J. Horvath, Sarah Berghmans, and Johannes Bogers .................................................. 810

Research Articles

Intended Coping Responses to Cancer Symptoms in Healthy Adults: The Roles of Symptom Knowledge, Detection Behavior, and Perceived Threat. Robert A.C. Ruiter, Jascha de Nooijer, Gerard van Breukelen, Caroline F. Ockhuysen-Vermey, and Hein de Vries .................................................. 818

Recruitment in the Prostate, Lung, Colorectal, and Ovarian (PLCO) Cancer Screening Trial: the First Phase of Recruitment at Henry Ford Health System. Lois E. Lamerato, Pamela M. Marcus, Gordon Jacobsen, and Christine Cole Johnson .................................................. 827
**Prognostic Significance of Cadherin-Based Adhesion Molecules in Cutaneous Malignant Melanoma.**
Gretchen M. Kreizenbeck, Aaron J. Berger, Antonio Subtil, David L. Rimm, and Bonnie E. Gould Rothberg .......................... 949

**Family History of Cancer and Associated Risk of Developing Neuroendocrine Tumors: A Case-Control Study.**
Manal M. Hassan, Alexandria Phan, Donghui Li, Cecile G. Dagohoy, Colleen Leary, and James C. Yao .................. 959
