Cancer Epidemiology, Biomarkers & Prevention is published eight times a year, one volume annually, by the American Association for Cancer Research, Inc. Except for members of the American Association for Cancer Research, all subscriptions are payable in advance to Cancer Epidemiology, Biomarkers & Prevention, P. O. Box 3000, Denvillle, NJ 07834 [Telephone: (800) 875-2997 or (201) 627-3247, FAX: (212) 627-5872], to which all business communications, remittances (in United States currency or its equivalent), and subscription orders should be sent. In Japan, subscription orders to (sole agent): USACO Corporation, Tsutsumi Bldg., 13-12, Shimbashi 1-chome, Minato-ku, Tokyo 105, Japan. Tel: (03) 302-6471. Nonmembers of the American Association for Cancer Research within the United States may subscribe to Volume 4 (1995) of Cancer Epidemiology, Biomarkers & Prevention at the rate of $85 (individual nonmembers) or $165 (institutional nonmembers), including postage. Institutional and individual nonmembers outside of the United States should add $20 to their respective rates to offset second-class postage costs. Canadian subscribers should add 7% GST. Changes of address notification should be sent 60 days in advance and include both old and new addresses. Member subscribers should send address changes to: Member Services, American Association for Cancer Research, Inc., Public Ledger Bldg., Suite 816, 150 South Independence Mall West, Philadelphia, PA 19106-3483. Nonmember subscribers should send changes of address to: Cancer Epidemiology, Biomarkers & Prevention, P. O. Box 3000, Denville, NJ 07834. Copies of the journal which are undeliverable because of address changes will be destroyed. Accelerated mailing of all AACR journals to AACR members in Japan is fully supported by a generous grant from the Banyu Pharmaceutical Company, Tsukuba, Japan.
Notice to Members of the American Association for Cancer Research

Officers for 1995–1996
President: Joseph R. Bertino, Memorial Sloan-Kettering Cancer Center, New York, NY 10021
President-Elect: Louise C. Strong, UT M. D. Anderson Cancer Center, Houston, TX 77030
Treasurer: Bayard D. Clarkson, Memorial Sloan-Kettering Cancer Center, New York, NY 10021
Executive Director: Margaret Foti, AACR, Public Ledger Bldg., Suite 816, Philadelphia, PA 19106-3483

Annual Dues
The annual dues of active members of the American Association for Cancer Research are $160, $50 of which may be applied toward a subscription to Cancer Epidemiology, Biomarkers & Prevention. Corresponding members of the Association will be charged an appropriate fee to offset second-class postage costs. Payment of dues and changes of address of members of the Association should be sent promptly to Margaret Foti, Executive Director, American Association for Cancer Research, Public Ledger Bldg., Suite 816, 150 South Independence Mall West, Philadelphia, PA 19106-3483; Telephone: (215) 440-9300; FAX: (215) 440-9313.

Submission of Manuscripts
Cancer Epidemiology, Biomarkers & Prevention publishes original research on cancer causation and prevention in humans, linking three previously unintegrated disciplines: epidemiology, biomarkers, and prevention. Topics include descriptive, analytical, biochemical, and molecular epidemiology; the use of biomarkers to study the neoplastic and preneoplastic processes in humans; chemoprevention and other types of prevention trials; and the role of behavioral factors in cancer etiology and prevention. Manuscripts that address individual subjects in any of the three disciplines are welcome as well as manuscripts with an interdisciplinary approach. All submissions undergo peer review. Papers should be sent directly to Pelayo Correa, M. D., Editor-in-Chief, CEBP, Dept. of Pathology, Louisiana State University Medical Center, 1901 Perdido Street, New Orleans, LA 70112-1393. See Instructions for Authors (page i of this issue) for further information concerning submissions.

Back Issues and Single Copy Sales of the Journal
Copies of back stock of the journal may be ordered from Cancer Epidemiology, Biomarkers & Prevention, P. O. Box 3000, Denville, NJ 07834 [Telephone: (800) 875-2997 or (201) 627-2427; FAX: (201) 627-5872]. As long as supplies permit, single copies will be sold by this company at $12.50/copy. Orders outside the U.S. add $1.50/copy to offset postage costs.

Advertisements
Advertisement insertion orders and copy must be received five weeks prior to the date of issue in which the advertisement is to be published. The journal is mailed on approximately the 10th day of the month of issue. Inquiries about advertising should be directed to: M. J. Mrvica Associates, Inc., 155 South White Horse Pike, Berlin, NJ 08009 [Telephone: (609) 768-9360; FAX: (609) 753-0064].

Copyright and Permissions
Authors who wish to publish in Cancer Epidemiology, Biomarkers & Prevention must formally transfer copyright to the proprietor of the journal, the American Association for Cancer Research, Inc. It is understood by this transfer that the authors relinquish all exclusive rights of copyright ownership, including the rights of reproduction, derivation, distribution, sale, and display. Authors who prepared their articles as part of their official duties as employees of the U.S. Federal Government are not required to transfer copyright to the American Association for Cancer Research, Inc., since these articles are considered to be in the public domain. In the case of articles supported by federal grants or contracts, copyright transfer to the American Association for Cancer Research, Inc., is required. The federal government may retain a nonexclusive license to publish or republish such material.

The Journal will routinely allow authors (or others with the permission of the authors) to include select parts of a copyrighted article in reviews, books, or subsequent papers, upon written request to the AACR Director of Publications. Requests to reproduce an article in its entirety will be considered on an individual basis and permission may be granted contingent upon payment of an appropriate copyright fee. All reproduction requests must include a brief description of intended use and a stamped, self-addressed envelope. Third parties should obtain the approval of the authors before corresponding with the AACR.

Those who wish to photocopy articles should contact the AACR Publications Department [Telephone: (215) 440-9300; FAX: (215) 440-9355].

No responsibility is accepted by the Editors, by the American Association for Cancer Research, Inc., by the American Society of Preventive Oncology, or by Cadmus Journal Services for the opinions expressed by contributors or for the content of the advertisements.

Cancer Epidemiology, Biomarkers & Prevention is indexed in Chemical Abstracts, Current Contents/CM®, Index Medicus, MEDLINE, and the BIOSIS Previews® Database. This journal is printed on acid-free paper.

Cancer Epidemiology, Biomarkers & Prevention (ISSN 1055-9965) is published eight times annually in Jan/Feb, March, April/May, June, July/August, September, Oct/Nov, & December by the American Association for Cancer Research, Inc., Public Ledger Bldg., Suite 816, 150 South Independence Mall West, Philadelphia, PA 19106-3483 for $50 annually for members, $85 for individual nonmembers, and $165 for institutional nonmembers. Second-class postage paid at Philadelphia, PA and additional mailing offices. POSTMASTER: Send address changes to Cancer Epidemiology, Biomarkers & Prevention, P. O. Box 3000, Denville, NJ 07834. Copyright 1995 by the American Association for Cancer Research, Inc. Printed in the U.S.A.
MAYO CLINIC
MAYO CANCER CENTER

Associate Director for Cancer Prevention and Control

The NCI-designated Mayo Cancer Center in Rochester, Minnesota, invites applications for Associate Director of Cancer Prevention and Control. Investigators with established research programs in cancer prevention and control and with demonstrated leadership skills are encouraged to apply. The Mayo Clinic provides an outstanding environment for conducting cancer prevention and control research, with particular strengths in epidemiology biostatistics and health services research. Interested candidates should submit a letter of application including a statement of research interests, curriculum vitae, bibliography and list of references to:

James Ingle, M.D.
Associate Director for Clinical Research
Mayo Cancer Center
Mayo Clinic
200 First Street SW
Rochester, MN 55905

Mayo Foundation is an affirmative action and equal opportunity educator and employer.

MAYO CLINIC
MAYO CANCER CENTER

Staff Scientist in Cancer Research

The NCI-designated Mayo Cancer Center in Rochester, Minnesota, invites applications for several staff scientist positions in cancer research. Investigators with established research programs in areas of cancer biology with clinical/translational applicability are especially encouraged to apply. Areas of particular emphasis in the Mayo Cancer Center include breast and gynecologic malignancies, neuro-oncology (adult and pediatric primary brain tumors), prostate and genito-urinary malignancies, gastrointestinal malignancies, soft tissue sarcomas (including pediatric solid tumors), and hematologic malignancies. The Mayo Clinic provides an outstanding environment for investigators interested in applying modern advances in the cellular and molecular basis of cancer to improved methods in the prevention, diagnosis and treatment of cancer. Interested applicants should submit a statement of research interests, curriculum vitae, bibliography and list of references to:

Nita J. Maihle, Ph.D.
Associate Director for Basic Research
Mayo Cancer Center
Mayo Clinic
200 First Street SW
Rochester, MN 55905

Mayo Foundation is an affirmative action and equal opportunity educator and employer.
1996 GERTRUDE ELION CANCER RESEARCH AWARD

Supported by an Educational Grant from
Glaxo Wellcome Oncology

- This Award was established in honor of Nobel Laureate Dr. Gertrude Elion, Scientist Emeritus at Glaxo Wellcome Co. and Past President and Honorary Member of the AACR.

- The Gertrude Elion Cancer Research Award is a one-year, $30,000 grant for a scientist in the U.S. or Canada engaged in meritorious basic, clinical, or translational research in cancer etiology, diagnosis, treatment, or prevention at the level of non-tenured Assistant Professor.

- The AACR will reimburse the Awardee for travel to the 1996 Annual Meeting in Washington, D.C., where Dr. Elion will personally present this Award.

Eligibility

Candidates must have completed postdoctoral studies or clinical fellowships not later than July 1 of the Award year, and ordinarily not more than five years earlier. Tenured faculty in academia, government employees, and employees of private industry are not eligible for this award. A Candidate need not be a member of the AACR at the time of application, but must be nominated by a Member of the AACR. Associate Members may not be nominators.

Selection Process

Applications are evaluated by a Committee consisting of AACR Members who are experts in basic, clinical, and translational cancer research. Complete applications must be submitted by February 15, 1996, to be considered for the 1996 Award.

A

Aberrant crypt foci modulation by dietary fat and caloric restriction, 49

Abstracts
American Society of Preventive Oncology annual meeting, 181

N-Acetylcysteine pharmacodynamics, phase I trial, 245

N-Acetyltransferase-2 within-subject caffeine metabolism variation analysis, 139

ACS: see American Cancer Society

Adenocarcinoma, esophageal alcohol, obesity, tobacco and, 85 colorectal cancer with, 93

Adenocarcinoma, lung radon-associated p53 and K-ras, 791 workshop meeting report, 175

Adenoma, colorectal aneuploidy, pilot study, 347

Adenomatous polyps colorectal aspirin and NSAIDs and, endoscoped individuals, 703 red cell and plasma folate, folate consumption and, 709

Adolescents darker and lighter skinned Northern European descendants sunburn nevus, 825

Aerodigestive tract cancer risk nitrate, nitrite and nitrosoodimethylamine consumption and, 29

African Americans lung cancer risk mutagen sensitivity and, 99 older men lifestyle factors, serum androgens and sex hormone-binding globulins and, 735

Age: see also Older men; Older women and plasma hormones, premenopausal women, 381

Alaska Natives hepatocellular carcinoma, p53 mutations, 79

Alcohol and breast cancer risk by estrogen/progesterone receptor status, Iowa Women’s Health Study, 313 population-based case-control study, Sweden, 843 postmenopausal Los Angeles women, 721 and esophageal adenocarcinoma, 85 intake urinary marker, 849

α-Particles -induced liver cancer, p53 mutations, 765

Aluminum workers white blood cell PAH-DNA adducts and urine 1-hydroxypyrene, 69

American Cancer Society Fourth Award for Research Excellence in Cancer Epidemiology and Prevention, 579

American Society of Preventive Oncology 19th annual meeting abstracts, 181 meeting report, 429

Aminobiphenyl -hemoglobin adducts GSTM1 and, white, black, and Asian smokers and nonsmokers, 861

Androgens plasma age, reproductive characteristics and, premenopausal women, 381 serum and lifestyle factors, older men, 735

Aneuploidy and recurrent colorectal adenoma risk, pilot study, 347

Antihypertensive drugs plasma androgens and, colorectal polyps risk, endoscoped individuals, 703

Antimetastatic agents PSK (Krestin), overview, 275

Antioxidants plasma seasonal variations, 207

Aromatic amines metabolism, phenobarbital-treated epileptics, 771

Aromatic compounds -DNA adducts, human breast tissue, 233

Asbestos exposure p53 lung cancer mutations and, 543

Ascorbic acid dosing time and N-nitrosopropylene test, healthy subjects, 775 plasma stability, during freezer storage, 505

Asians aminobiphenyl-hemoglobin adducts, GSTM1 and, 861 older men lifestyle factors, serum androgens and sex hormone-binding globulins and, 735

Aspirin and colorectal polyps risk, endoscoped individuals, 703

ASPO: see American Society of Preventive Oncology

Atherosclerotic lesions DNA adducts, detection, 105 p53 and, 111

Australia immigrants ovarian cancer mortality, 453

Awareness breast cancer risk first-degree relatives of recently diagnosed patients, 561

B

Basal skin carcinoma serological precursors, 837

Basidiomycetes protein-bound polysaccharide PSK antimitastatic effects, overview, 275

Bcl-2 urothelial expression, cobalt and N-nitrosodioethanolamine exposure, 617

BCPT: see Breast Cancer Prevention Trial

Biomarkers: see also Intermediate marker endpoints categories and study designs matrix, 301 colon cancer noninvasive detection with fecal mRNA, 643 environmental exposure placental CYP1A1 mRNA levels, 147 peripheral blood smoking cessation, 627 vegetable intake plasma carotenoids, University of Minnesota Cancer Prevention Research Unit feeding studies, 491

Blacks aminobiphenyl-hemoglobin adducts, GSTM1 and, 861 men prostate cancer risk, vitamin D, vitamin D-binding protein, and dehydroepiandrosterone and, 655

Bladder cancer ginseng prevention, case-control study, 401 male excess gender-based P450IA2 variability and, 529

Blood peripheral DNA damage and biomarkers, smoking cessation, 627 red cells folate, and colorectal polyps risk, 709 white cells PAH-DNA adducts, aluminum workers, 69

Brazil Rio de Janeiro lung cancer, Cyp1A1 heme-binding region polymorphism and, 63

BrdUrd: see Bromodeoxyuridine

Breast cancer carcinogen-DNA adducts, human tissue, 233 and estrogen/progesterone receptor status, Iowa Women’s Health Study, 319 familial plasma lipids and lipoproteins and, 117 ginseng prevention, case-control study, 401 hereditary families anticipated uptake and impact of genetic testing, 169 mammography screening, low income multi-ethnic Los Angeles population, 161
