Instructions for Authors

Scope

Cancer Epidemiology, Biomarkers & Prevention publishes original research on cancer causation and prevention in humans. The following topics are of special interest: descriptive, analytical, biochemical and molecular epidemiology; the use of biomarkers to study the neoplastic and preneoplastic processes in humans; chemoprevention and other types of prevention trials; and the role of behavioral factors in cancer etiology and prevention.

Particular attention will be given to the identification of factors associated with various aspects of the carcinogenic process, including genetic susceptibility, host factors, infectious agents, chemical and physical carcinogens, environmental contaminants, dietary components and behavioral factors such as tobacco use and sun exposure.

Besides welcoming manuscripts that address individual subjects in any of the three disciplines, the Editors encourage the submission of manuscripts with an interdisciplinary approach.

Contents

- Original research articles
- Invited editorials
- Selected review articles
- Short communications
- Letters to the editor
- AACC & ASPO news
- Meeting reports

Editorial Policy

When a manuscript is received for consideration, the Editors assume that no similar paper has been or will be submitted for publication elsewhere. Further, it is understood that all authors listed on a manuscript have agreed to its submission. Upon acceptance, authors must transfer copyright to the American Association for Cancer Research, Inc., the publisher and copyright owner of the journal, prior to publication. Once an article is accepted for publication in Cancer Epidemiology, Biomarkers & Prevention, the information therein is embargoed from reporting by the media until the date of the issue in which the article appears. The Editors endorse the principles embodied in the Declaration of Helsinki and expect that all investigations involving humans have been performed in accordance with these principles. A copy of the Declaration is available from the World Medical Association, 28, Ave. des Alpes, F-01210, Ferney-Voltaire, France.

Journal policy requires that authors, reviewers, and Associate Editors reveal to the Editor-in-Chief any relationships that they believe could be construed as causing a conflict of interest with regard to the manuscript submitted for review.

Manuscript Submission

Mail manuscripts directly to Dr. Pelayo Correa, Editor-in-Chief. Submit four original copies of illustrations along with four copies of the manuscript. Illustrations will be returned to the author if the paper is not accepted for publication. If a manuscript is closely related to papers that are in press or have been submitted elsewhere, please provide copies of those papers with your submission. FAX transmission and overnight delivery service will be used to expedite review and publication.

Publication Fees

A page charge of $35 per printed page will be levied on all manuscripts accepted for publication. It is understood at the time of submission that the author(s) agree to pay this charge in the event of publication. Under exceptional circumstances, when no other source of grant or other support exists, the author(s) may apply to Dr. Margaret Foti, Director of Publications, AACR Publications Department (see end of page for address) at the time of submission for a waiver of the page charges. All such applications must be countersigned by an appropriate institutional official stating that no funds are available for the payment of page charges.

Format

Manuscripts must be written succinctly in clear, grammatical English. Define abbreviations in an inclusive footnote to the text. Double-space on 8 1/2 × 11-inch paper. Dot-matrix printing is not acceptable. The format is as follows:

1. Title page, including title, authors, and affiliations;
2. A running title of fewer than 50 characters;
3. Text, arranged in this order: Abstract (not more than 250 words), Introduction, Materials and Methods, Results, Discussion, Acknowledgments, References;
4. Footnotes, on a page separate from the text. Designate footnotes consecutively with superscript Arabic numerals;
5. Tables, on pages separate from the text, with descriptive titles and/or legends;
6. Figure legends, on pages separate from the text. Define all symbols and include staining for halftones, where applicable.

References

Include only those articles that have been published or are in press. Unpublished data or personal communications must be cited as footnotes to the text. Personal communications should be substantiated by a letter of permission.

Number references in the order of their first mention in the text. Cite only the number assigned to the reference. References must be double-spaced.

Sample references:

Illustrations

Provide four original sets of illustrations (whether line-cut drawings or halftones). Label each figure in pencil on the reverse side with the first author's name, figure number, and an arrow indicating top of figure. Letters and numbers on illustrations should not be smaller than 6-point or larger than 12-point type. All illustrations will be published at a width of approximately 3 inches (8 cm) unless the author requests a greater width. Use tissue overlays to indicate important areas of the photographs that must be reproduced with the greatest fidelity.

Authors are encouraged to submit color figures. The expense of reproducing color photographs must be offset partially by the author. In 1996, the cost of color reproduction charged to authors will be $975 per color figure. Submit color illustrations on flexible backing.

Proofs

Page proofs must be returned to the Executive Editor of Cancer Epidemiology, Biomarkers & Prevention within 48 hours of receipt. Return proofs by overnight mail. Proofs not received by the deadline will be published without the authors' corrections. Accepted manuscripts are regarded as final copy and should not be altered substantially in proof. Extensive alterations could cause publication delays, and authors will be charged for excessive changes in proof.

Typesetting Manuscripts from Computer Disks

Cancer Epidemiology, Biomarkers & Prevention welcomes disks to expedite production of accepted manuscripts. If your article is accepted for publication, you will receive instructions regarding disk submission and a form which must be completed and returned with your disk to the AACR Publications Department within 48 hours of notification of acceptance. It is the author's responsibility to ensure that the material on the disk matches the final accepted version of the manuscript.

For More Information, Contact:

Dr. Pelayo Correa, Editor-in-Chief, EBP, Department of Pathology, Louisiana State University Medical Center, 1901 Perdido Street, New Orleans, LA 70112-1393. Telephone: (504)529-2848; (504)568-6035; FAX: (504)529-2849.

Email: aacr@aol.com • For up-to-date information visit the AACR Website at http://www.aacr.org
BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AARC), a scientific society of over 11,000 laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage the presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world.

Members of the AARC enjoy the following benefits:
1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AARC annual meeting;
2. an advance copy of the Program and Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. reduced registration rates at annual meetings;
4. priority notice of small, focussed meetings in the AARC’s exciting series of Special Conferences in Cancer Research;
5. substantially reduced registration rates for Special Conferences;
6. opportunities for participation in AARC meetings in North America and abroad with other scientific societies around the world;
7. receipt of AARC Newsletters and other important announcements;
8. early notification of and reduced rates for participation in the AARC Employment Register;
9. an up-to-date Membership Directory of over 11,000 member researchers in the cancer field;
10. the professional benefits of the AARC’s public education activities concerning funding for cancer research and press coverage of the latest research findings;
11. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators;
12. the facilitation of informal scientific exchange with leading researchers in the cancer field; and
13. many more ongoing benefits.

QUALIFICATIONS FOR MEMBERSHIP

Active membership in the AARC is open to investigators who live in the Americas. Individuals who have conducted two years of research resulting in peer-reviewed publications relevant to cancer, or who have made substantial contributions to cancer research in an administrative or educational capacity, are eligible. If a candidate has conducted research in an area of biomedical science related to cancer, he or she will qualify for membership if the papers relevant to cancer research may be submitted as qualifications for membership in lieu of peer-reviewed publications.

Corresponding membership is open to persons who are not residents of the Americas. The qualifications for corresponding membership are the same as those indicated above for active membership. Visiting scientists from outside the Americas who intend to return to their countries of origin by the anticipated time of election should apply for corresponding membership. All other visiting scientists should apply for active membership and transfer to corresponding status upon leaving the Americas.

Graduate and medical students, postdoctoral fellows, and physicians in training who do not yet meet the above qualifications for active or corresponding membership should apply for associate membership. Forms for associate membership are available from the AARC Office.

PROCEDURES FOR APPLICATION

There are three deadlines for the receipt of a membership application: January 1, May 1, and September 1 of each year. The Membership Committee will review all complete applications for active membership that have been received by these deadlines and will submit recommendations on each candidate to the Board of Directors who formally elects all members. The same procedure is followed by the Special Memberships Committee which receives applications for corresponding membership. Candidates will be notified according to the following schedule:

<table>
<thead>
<tr>
<th>Receipt of Application</th>
<th>Notification of Candidate</th>
</tr>
</thead>
<tbody>
<tr>
<td>in AARC Office</td>
<td></td>
</tr>
<tr>
<td>January 1</td>
<td>March</td>
</tr>
<tr>
<td>May 1</td>
<td>July</td>
</tr>
<tr>
<td>September 1</td>
<td>November</td>
</tr>
</tbody>
</table>

A complete application consists of the following material:
1. 6 copies of the form on the opposite side of this page, with all requested information provided.
2. 5 copies of the candidate’s most current curriculum vitae and bibliography.
3. 5 copies of a letter of recommendation from a nominator who is an active, corresponding, emeritus, or honorary member of the AARC (at least one copy must be a signed, original letter). This letter should describe the candidate’s achievements in laboratory research, clinical investigations, or epidemiological research, and it should affirm that this research adheres to accepted ethical scientific standards. –OR– The nominator may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
4. 5 copies of a letter of recommendation as described in Item 3 above from a seconder who is an active, corresponding, emeritus, or honorary member of the AARC (at least one copy must be a signed, original letter). –OR– The seconder may supply the responses requested at the bottom of the application form in the section entitled “STATEMENT OF SUPPORT” (at least one copy of the form must be the signed original).
5. 5 reprints of each of two publications on which the candidate appears as author. As noted above, evidence of patents developed by the candidate may be submitted in lieu of one or both of the publications. If submitting patents, supply patent number and year awarded.

All material should be collated into five complete sets with the original application form as a covering document and sent to the address given below. Questions regarding procedures for membership application may also be directed to the following address:

American Association for Cancer Research
Public Ledger Building, Suite 816
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacr@aol.com

RESPONSIBILITIES OF MEMBERSHIP

Candidates should be aware of the following responsibilities of membership in the AARC. Active members must pay annual dues. In 1996 annual dues for active members are $160, $95 of which is designated for AARC journal subscriptions. Newly elected members of the AARC who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rates will receive reimbursement of the unused portion of those subscriptions once their first year’s membership dues are paid in full.

Corresponding members are required to pay dues ($80 in 1996) and may, if they wish, subscribe to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at reduced member rates.

Applicants elected in March will be responsible for payment of that year’s dues; applicants elected in July and November will pay dues for the following year. Applicants elected in March and July will be eligible to sponsor an abstract for the next annual meeting. Every effort will be made to afford the same opportunity to applicants elected in November.

CANDIDATE IS APPLYING FOR (Check one): ☐ ACTIVE ☐ CORRESPONDING MEMBERSHIP

STATEMENT OF SUPPORT

Instead of submitting letters of recommendation, either the nominator or the seconder or both may complete the following section:

How long has the candidate worked in the field of cancer research? _____years

Will the candidate make a long-term contribution to cancer research? ____Yes ____No

Does the candidate’s research adhere to accepted ethical standards? ____Yes ____No

I therefore recommend this candidate for membership in the American Association for Cancer Research.

Signature of nominator* __________________________ Date __________________________

Signature of seconder* __________________________ Date __________________________

See Guidelines for Application on the reverse side of this form for further instructions.

*Both nominator and seconder must be active, corresponding, emeritus, or honorary members of the AACR.
QUALIFICATIONS FOR MEMBERSHIP

Associate membership is open to graduate students, medical students, postdoctoral fellows, and physicians in training who are following a course of study or who are working in a research program relevant to cancer. Scientists in training who already have a substantial record of publications may wish to apply for active or corresponding membership which confers full benefits of membership.

BENEFITS OF MEMBERSHIP

The American Association for Cancer Research (AACR), a scientific society consisting of laboratory and clinical cancer researchers, was founded in 1907 to facilitate communication and dissemination of knowledge among scientists and others dedicated to the cancer problem; to foster research in cancer and related biomedical sciences; to encourage presentation and discussion of new and important observations in the field; to foster public education, science education, and training; and to advance the understanding of cancer etiology, prevention, diagnosis, and treatment throughout the world. Associate members of the AACR enjoy the following benefits:

1. the privilege of sponsoring a proffered paper (abstract) for consideration for presentation at the AACR annual meeting provided that (a) the associate member is the presenter of the paper and (b) an active, corresponding, emeritus, or honorary member in good standing of the AACR also signs the abstract of the paper in support of the work. (In this instance, the member who cosigns the abstract does not lose his or her own sponsorship privilege.);
2. an advance copy of the scientific Program and (if one has been purchased by the associate member) the Proceedings of the American Association for Cancer Research that contains over 4,000 abstracts of proffered papers presented at the annual meeting;
3. the privilege of registering for the annual meeting at the low associate member rate;
4. preferred access to the AACR Employment Register;
5. optional subscriptions to the Association’s high-quality journals Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, and Cancer Epidemiology, Biomarkers & Prevention at reduced member rates;
6. priority notification of events in the AACR’s series of special conferences on timely subjects in the field;
7. substantially reduced registration rates at special conferences;
8. the receipt of AACR newsletters, meeting announcements, and an up-to-date Membership Directory;
9. the opportunity to participate in three Summer Workshops that foster knowledge in the cancer field for young investigators; and
10. the facilitation of informal scientific exchange with leading researchers in the cancer field.

PROCEDURES FOR APPLICATION

Persons wishing to apply for associate membership must use the official application form on the reverse side of these instructions. Each candidate for associate membership must be nominated by an active, corresponding, emeritus, or honorary member in good standing of the AACR. Three completed copies of the form should be submitted; at least one of these copies must carry the original signatures of both the candidate and the nominator. The application form may be submitted to the Association Office at any time.

After review of applications for associate membership, the Executive Director will notify candidates of their election or deferral within one month of the receipt of the application form. A check for one year’s dues payment must accompany the application. Dues are currently $35 for associate members residing in the Americas and $45 for residents of other countries. This fee will be refunded to any candidate deemed to be ineligible for associate membership. Checks should be in U.S. currency, made payable to AACR, Inc., and drawn on a U.S. bank. Send the three copies of the application form and the $35 or $45 dues payment to:

American Association for Cancer Research
Public Ledger Building, Suite 816
150 S. Independence Mall West
Philadelphia, PA 19106-3483
Phone: 215/440-9300
FAX: 215/440-9313
E-mail: aacr@aol.com

RESPONSIBILITIES OF MEMBERSHIP

Associate members must pay annual dues in an amount to be determined by the AACR Board of Directors. Dues for 1995 and 1996 have been set at $35 per year for residents of the Americas and $45 for residents of other countries. If an application is submitted by August 31, the accompanying dues payment will be credited to the current year. Candidates submitting applications between September 1 and December 31 may indicate whether they wish their dues payments credited to the current or forthcoming year. Candidates should be aware, however, that associate members may sponsor an abstract for the annual meeting only if their dues for the current year are paid. For example, an associate member submitting an abstract in November 1995 for the forthcoming annual meeting must have paid dues for 1995. Any newly elected associate members of the AACR who have already purchased subscriptions to Cancer Research, Clinical Cancer Research, Cell Growth & Differentiation, or Cancer Epidemiology, Biomarkers & Prevention at the higher, nonmember rate will receive a refund for the unused portion of that subscription upon receipt of their payment for a member’s subscription.

Each Fall the AACR will send to current associate members an invoice for dues for the forthcoming year. Payment of this invoice must be accompanied by a statement signed by the associate member’s current registrar, dean, or department head, verifying the member’s current academic status. The Association’s By-Laws state that dues are payable for each year in advance by January 1 of the year to which they should be applied. An individual may be an associate member for a maximum of five years. Each year in which an individual pays dues will count as one full year of associate membership. Thus, an associate member who pays dues for 1995 may retain associate membership until December 31, 1999. The Board of Directors may terminate the membership of an associate member whose dues are in arrears for two years.

SIGNATURES

I hereby apply for associate membership in the American Association for Cancer Research. I have read the instructions on the reverse side of this form, and I understand the privileges and responsibilities of this class of membership. I certify that the statements on this application are true.

Signature of Candidate: __________________________ Date: __________

I recommend this candidate for associate membership in the American Association for Cancer Research. To the best of my knowledge, the candidate is qualified for this class of membership, and the statements on this application are true.

Signature of Nominator*: __________________________ Date: __________

Submit three copies of this form. At least one copy must contain the original signatures of the candidate and the nominator. Enclose a check in U.S. funds, made payable to AARC, Inc., and drawn on a U.S. bank for one year’s dues. Dues are currently $35 for associate members residing in the Americas and $45 for residents of other countries.

Check one of the following boxes only if this form is being submitted between September 1 and December 31:

☐ current ☐ forthcoming calendar year.

(NOCE: If dues are applied to the forthcoming year, membership will take effect on January 1, but the candidate will not be eligible to sponsor an abstract for presentation at the annual meeting in March or April of that year.) See Guidelines for Application on the reverse side of this form for further instructions.

* Nominator must be active, corresponding, emeritus, or honorary member of the AACR.

Disks produced on IBM or IBM-compatible computers are preferred, but those produced on some Apple or Wang computers can also be converted. Because of the file structures and internal coding, we cannot accept disks created on desktop publishing systems or those created on proprietary typesetting systems. We also cannot guarantee that all special characters can be translated. Tabular and mathematical material, such as equations, will not be captured from the disk but will be rekeyed.

To expedite work and for your own security, we do require that you submit a hard copy printout of the disk file. The tables and equations will be keyed from this hard copy. We also need to know the name of the file to be converted, the type of hardware (e.g., IBM PC) on which the files were created, the operating system (e.g., DOS 3.3), and the version of the software (e.g., WordPerfect 5.1) used to create the file.

PLEASE FILL OUT ALL INFORMATION ON REVERSE SIDE AND SUBMIT THIS FORM WITH YOUR DISK. DISKS WILL NOT BE PROCESSED WITHOUT THIS INFORMATION.
DISK SUBMISSION FORM

AACR journals are now using personal computers to copyedit manuscripts accepted for publication. When submitting a revised manuscript, authors are encouraged to submit an electronic disk of the paper along with the required four hard copy printouts. Disks will ultimately be returned to the authors.

See reverse for the word processing packages that can be accepted.

File preparation

Please be sure that the file you send is the most recent version of the manuscript and that it matches the most recently submitted printed copy. The file should contain all the parts of the manuscript in one file. Mathematical and tabular material, however, will be processed in the traditional manner and may be excluded from the disk file.

Note: AACR does not assume responsibility for errors in conversion of customized software, newly released software, or special characters.

Please label the outside of the disk with the journal name, the first author’s name, a partial title of the manuscript, and the name of the computer file used to access the manuscript on disk. To process your disk efficiently, we need the following information. Please be sure to provide ALL the information.

Name used to access paper on disk: __________________________________________
Name of computer used (e.g., IBM/PS2): ______________________________________
Operating system and version (e.g., DOS 3.3): _________________________________
Word processing program and version (e.g., WordPerfect 5.0): __________________
   [See reverse for acceptable programs.]

Manuscript number: _________________________________________________________
First author: _______________________________________________________________
Corresponding author (if different from first author): ___________________________
Telephone/FAX numbers: _____________________________________________________

This form (both sides) may be reproduced.
CAN 670 (1 cass., $11.50) NIH Grants Session: View from Peer Review
CAN 671 (2 cass., $23) Symposium 14: Endogenous DNA Damage: Detection and Biological Significance
CAN 672 (2 cass., $23) Symposium 15: Targeting Growth Factor Receptors for Therapy
CAN 673 (2 cass., $23) Symposium 16: Aberrant Transcription Factors and Malignancy
CAN 674 (2 cass., $23) Symposium 17: Thymidylate Synthase and Its Inhibitors
CAN 675 (3 cass., $34.50) Minisymposium Epidemiology and Prevention & Genetic Epidemiology: Genetic Susceptibility and Gene-Environmental Interaction
CAN 676 (3 cass., $34.50) Minisymposium Experimental Therapeutics 23: Resistance to Platinum Drugs
CAN 677 (3 cass., $34.50) Minisymposium Molecular Biology/ Biochemistry 25: Microsatellite Instability
CAN 678 (3 cass., $34.50) Minisymposium Biology 16: Host Effects on Tumor Cells: Angiogenesis
CAN 679 (1 cass., $11.50) Twentieth Richard and Hinda Rosenthal Foundation Award Lecture: The Place of Bone Marrow Transplantation in the Management of Patients with Lymphoma (James O. Armitage)
CAN 680 (1 cass., $11.50) Late-Breaking Research Session
CAN 681 (3 cass., $34.50) Minisymposium Immunology/Biological Therapy 10: Cytokines and Effector Cells
CAN 682 (3 cass., $34.50) Minisymposium Experimental Therapeutics 29: Epidermal Growth Factor Receptor-directed Therapeutics
CAN 683 (3 cass., $34.50) Minisymposium Carcinogenesis 13: Carcinogen-DNA Adducts: Influence on Transcription and Replication
CAN 684 (3 cass., $34.50) Minisymposium Biology 20: Invasion and Metastasis
CAN 685 (3 cass., $34.50) Symposium 18: Cell Signaling
CAN 686 (2 cass., $23) Symposium 19: Chemoprevention in Humans
CAN 687 (2 cass., $23) Symposium 20: Neuroblastoma: Recent Advances in Biology and Treatment
CAN 688 (2 cass., $23) Symposium 21: Telomerase, Cell Senescence, and Cancer
CAN 689 (1 cass., $11.50) DeWitt S. Goodman Lecture: Retinoid X Receptors: Master Regulators of Nuclear Hormone Receptor Signaling (David J. Mangelsdorf)
CAN 691 (1 cass., $11.50) Meet the Expert Sunrise Session: Interferons in Cancer (Ernest C. Borden)
CAN 692 (1 cass., $11.50) Meet the Expert Sunrise Session: Transcription Factors As Therapeutic Targets (Richard A. Heyman)

CAN 693 (1 cass., $11.50) Meet the Expert Sunrise Session: Radiation Sensitization (Theodore S. Lawrence)
CAN 694 (1 cass., $11.50) Meet the Expert Sunrise Session: Drugs That Interact with Microtubules: An Update (Eric R. Rowinsky)
CAN 695 (1 cass., $11.50) Meet the Expert Sunrise Session: Tumor Vaccines (Jeffrey Schlom)
CAN 696 (1 cass., $11.50) Meet the Expert Sunrise Session: Prodrugs for Cancer Chemotherapy (Peter D. Senter)
CAN 697 (1 cass., $11.50) Meet the Expert Sunrise Session: Culturing Normal and Transformed Human Epithelial Cells (Martha R. Stampley)
CAN 698 (2 cass., $23) Symposium 22: Cell Adhesion Receptors and the Cytoskeleton
CAN 699 (2 cass., $23) Symposium 23: Drug Metabolizing Enzymes in Cancer Prevention and Therapy
CAN 700 (2 cass., $23) Symposium 24: The Cell Cycle and Damage Response Pathways: Potential Targets for Therapy
CAN 701 (3 cass., $34.50) Minisymposium Clinical Investigations 13: Phase I Trials
CAN 702 (3 cass., $34.50) Minisymposium Carcinogenesis 15: Signal Transduction in Tumor Progression
CAN 703 (1 cass., $34.50) Minisymposium Experimental Therapeutics 35: Human Gene Therapy: Early Trial Results and Promising New Leads
CAN 704 (3 cass., $34.50) Minisymposium Molecular Biology/ Biochemistry 26: Microsatellite Instability
CAN 705 (1 cass., $11.50) Fifteenth Bruce F. Cain Memorial Award Lecture: Beyond DNA Crosslinking (Kurt W. Kohn)
CAN 706 (1 cass., $11.50) Controversy Session 4: Is p53/BR Important for Therapeutic Outcome?
CAN 708 (3 cass., $34.50) Minisymposium Biology 27: Novel Signaling Pathways and Cross-talk
CAN 709 (3 cass., $34.50) Minisymposium Clinical Investigations 15: Predictors of Response and Prognosis Markers in Solid Tumors
CAN 710 (2 cass., $23) Minisymposium Endocrinology and Signal Transduction: Prostate Cancer II
CAN 711 (3 cass., $34.50) Minisymposium Experimental Therapeutics 41: Alkylation Agents and Platinum Analogues II
CAN 712 (2 cass., $23) Symposium 25: Tumor Angiogenesis
CAN 713 (2 cass., $23) Symposium 26: Genetic Predisposition to Cancer
CAN 714 (1 cass., $11.50) NCI Training Workshop

VIDEO CASSETTES
EACH VIDEO PROGRAM CONSISTS OF ONE VIDEO, $39.00, UNLESS OTHERWISE NOTED

CAN 617V (2 cass., $78.00) Plenary Session: The Progress and Promise of Cancer Research: A Celebration of the Twenty-Fifth Anniversary of the National Cancer Act
CAN 621V (1 cass., $39.00) Thirty-Sixth Annual G.H.A. Clowes Memorial Lecture: Control of Proliferation by the Cell Cycle Clock (Robert A. Weinberg)
CAN 633V (1 cass., $39.00) First Joseph H. Burchenal AACR Clinical Research Award Lecture: Prophylactic Intervention for Malignancy: The Paradigm of the Type 2 Multiple Endocrine Neoplasia Syndromes (Samuel A. Wells, Jr)

CAN 650V (1 cass., $39.00) Presidential Address: The Evolution in Concepts of Drug Resistance: Implications for the Evaluation of New Drugs (Joseph R. Bertonio)
CAN 651V (1 cass., $39.00) Fifth American Cancer Society Award Lecture: Prevention of Cancer: The Role of Chemoprevention for the General Population and for Individuals at High Risk Due to Genetic Defects or Other Factors (Lee W. Wattenberg)
CAN 679V (1 cass., $39.00) Twentieth Richard and Hinda Rosenthal Foundation Award Lecture: The Place of Bone Marrow Transplantation in the Management of Patients with Lymphoma (James O. Armitage)
CAN 610V (1 cass., $39.00) Fifteenth Bruce F. Cain Memorial Award Lecture: Beyond DNA Crosslinking (Kurt W. Kohn)

VIDEO ORDERS
(Please check one)
☐ VHS
☐ PAL ($15 conversion surcharge)
☐ CHECK ENCLOSED PAYABLE TO TEACH 'EM
☐ VISA $25 MINIMUM ON CREDIT CARD ORDERS
☐ MC
☐ AMEX
☐ DISC EXPIRATION DATE

NAME                        TITLE
ORGANIZATION
ADDRESS (NO PO BOXES)       CITY       STATE       ZIP
SIGNATURE                   TELEPHONE

PLEASE NOTE: Any defective tapes will be replaced, but tapes are non-refundable.

PLEASE COMPLETE AND RETURN ENTIRE FORM
Research Articles

Adenocarcinomas of the Esophagus and Gastric Cardia: Medical Conditions, Tobacco, Alcohol, and Socioeconomic Factors
Zuo-Feng Zhang, Robert C. Kurtz, Ming Sun, Martin Karpeh, Jr., Guo-Pei Yu, Nina Gargon, Jeffery S. Fein, Steve K. Georgopoulos, and Susan Hartlap

Smoking and Drinking in Relation to Oral Epithelial Dysplasia
Douglas E. Morse, Ralph V. Katz, David G. Pendrys, Theodore R. Holford, David J. Krutchkoff, Ellen Eisenberg, Diane Kosis, and Susan T. Mayne

Hormone Replacement Therapy Is Associated with Lower Risk of Adenomatous Polyps of the Large Bowel: The Minnesota Cancer Prevention Research Unit Case-Control Study
John D. Potter, Robert M. Bostick, Gregory A. Grant, Lisa Fosdick, Patricia Elmer, James Wood, Patricia Granbush, and Thomas A. Louis

Stimulatory Influence of Soy Protein Isolate on Breast Secretion in Pre- and Postmenopausal Women
Nicholas L. Petrokis, Stephen Barnes, Eileen B. King, Jerold Lowenstein, John Wiencke, Marion M. Lee, Rei Mike, Marion Kirk, and Lori Coward

Induction of Cytochrome P450 2A6 Expression in Humans by the Carcinogenic Parasite Infection, Opisthorchiasis Viverini
So-sung-wan Satarug, Matti A. Lang, Pungrat Yongvanit, Paiboon Sithithaworn, Eimorn Maiirang, Pisalan Maiirang, Paivi Pelkonen, Helmut Bartsch, and Melissa R. Haswell-Elkins

Glycophorin A Somatic Cell Mutation Frequencies in Finnish Reinforced Plastics Workers Exposed to Styrene

Stability of Vitamins A, C, and E, Carotenoids, Lipids, and Testosterone in Whole Blood Stored at 4°C for 6 and 24 Hours before Separation of Serum and Plasma
Timothy Key, Suzi Oakes, Gwyneth Davey, John Moore, Laurie M. Edmond, Una J. McIverne and David I. Thurnham

The Association between Participant Characteristics and Serum Concentrations of β-Carotene, Retinol, Retinyl Palmitate, and α-Tocopherol among Participants in the Carotene and Retinol Efficacy Trial (CARET) for Prevention of Lung Cancer
Gary E. Goodman, Mark Thornquist, Mark Kestin, Barbara Metch, Garnet Anderson, Gilbert S. Omenn, and CARET Investigators

cis-trans Lycopene Isomers, Carotenoids, and Retinol in the Human Prostate
Steven K. Clinton, Curt Emenhiser, Steven J. Schwartz, David G. Bostwick, Alexa W. Williams, Billy J. Moore, and John W. Erdman, Jr.

Reproducibility Studies and Interlaboratory Concordance for Assays of Serum Hormone Levels: Estrone, Estradiol, Estrone Sulfate, and Progesterone
