PLENARY SESSION
New Horizons in Cancer Research (Frank J. Rauscher, III)

SYMPOSIA
Molecular Determinants of Cellular and Tumor Responses to Radiation (Michael B. Kastan)
Successes in Oncogene-based Drug Targeting: Selectivity and Specificity (Alex Matter)
Cancer Gene Therapy: New Concepts and Clinical Applications (Jack A. Roth)
Reconstruction of Human Tumorigenesis and Progression: Cancer Genetics in Model Organisms
Tumor Angiogenesis: An Integrated Approach (Rakesh K. Jain)
Signaling by wnt-1, β-catenin, and the APC Tumor Suppressor in Cancer (Paul Polakis)
Prostate Cancer: Basic Science and Clinical Aspects (Leland W.K. Chung)
The Molecular Basis of Immune Recognition: Basic Concepts with Therapeutic Implications (Giorgio Trinchieri)
The bcl-2 Family: Regulation and Effectors (Stanley J. Korsmeyer)
Inherited Cancer Susceptibility Syndromes: Genetics, Genes, and Function
New Concepts in Chemotherapeutics and Drug Resistance (Susan Band Horwitz)
Cell Death Signalling Pathways: Caspase Cascades and Effectors/Initiators of Apoptosis
p73/p53: An Emerging Gene Family (William G. Kaelin)
Breast Cancer: Basic Science and Clinical Aspects (Sofia D. Merajver)
Molecular Targets and Endpoints for Chemoprevention (Waukn Ki Hong)
Tumor Physiology: Tumor-Stromal, Cell-Cell, and Microenvironment Interactions (Mina J. Bissell)
Gastrointestinal Cancer: Basic Science and Clinical Aspects
Tumor Virology: Molecular Biology and Etiology (Karl Münger)
Advances in Cancer Vaccine Development (Dorothy Herlyn)
Molecular Diversity-based Approaches to Anti-Cancer Drug Design (Jack D. Keene)
New Mechanisms of Action of Viral and Cellular Oncogenes (Elizabeth Moran)
Genetic Approaches to Diagnosis: The Impact of Molecular Medicine on Early Detection and Diagnosis (David Sidransky)
Tobacco and Lung Carcinogenesis: Genetics, Biology, and Etiology (Adi F. Gazdar)
Transcriptional Regulation of the Neoplastic Phenotype (Frank J. Rauscher, III)
Restoring Drug Sensitivity to Tumors: New Concepts from Tumor Biology and Physiology (William N. Hait)
Emerging Concepts in Individual Cancer Susceptibility (Fred F. Kadlubar)

CONTROVERSY SESSIONS
Have We Improved the Treatment of Cancer?
Environmental Estrogens and Cancer
Will Multidrug Resistance Modulators Be Effective in the Clinic?

METHODS WORKSHOPS AND EDUCATIONAL SESSIONS
To Be Announced

"MEET-THE-EXPERT" SUNRISE SESSIONS
Cancer Genome Anatomy Project (CGAP): Update and Potential (Paul S. Meltzer)
Cell Adhesion: Integrin Signaling, Membrane to Nucleus
JAK-STATs: Dedicated Cytokine Signaling Pathways
Histone Acetylation and Transcriptional Regulation (Tony Kouzarides)
Molecular Genetics of Brain Tumors
Genetic Analysis of Tumor Suppression by COX-2 Inhibitors (Makoto M. Taketo)
Antisense-based Therapeutics: Basic and Clinical Studies (Thale Jarvis)
Gene Transfer to Hematopoietic Progenitors (Fulvio Mavilio)
Psychosocial Aspects of Genetic Diagnosis (Caryn E. Lerman)
B-Cell Lymphomas: Genetics and Biology (Riccardo Dalla-Favera)
Hormonal Regulation of Cell Proliferation and Differentiation (Lorraine J. Gudas)
Cell Cycle Control (Giulio Draetta)
Proteases in Cancer: Clinical Significance and Mechanisms in Metastasis (Henri Rochefort)
Inherited Cancers of the Kidney: Family Studies, Genes, and Biochemistry (W. Marston Linehan)
Strategies for Combining Chemotherapy and Biotherapy (Antonio C. Buzaid)
New Concepts in Antimetabolites: Basic Science and Clinical Trials (Steven Grant)
IL-12: Biological and Clinical Developments (Giorgio Trinchieri)
Chemoprevention Trials: Progress and Promise (Scott M. Lippman)
Nuclear Hormone Receptors in Development and Disease
Growth Factor Signaling: The IGF-1, IGF-2 System in Cancer (Haim Werner)
Genetics and Biology of Hematologic Malignancies (Pier Pellici)
Radiation Sensitization: Basic and Clinical Aspects
Advances in Mechanisms of Drug Resistance: Basic Science and Clinical Implications (Susan E. Bates)
Immunotherapy and Costimulatory Molecules
Emerging Issues in Molecular Epidemiology (Barbara S. Hulka)
Initiation of DNA Damage and Repair
Familial Cancer Syndromes: DNA Testing and Clinical Approaches (Ken Yamaguchi)
HIV Receptors and Co-Receptors: Basic Science and Clinical Implications
Chromosomal Translocations: Genetics, Biology, and Protein Function (James R. Downing)
Recent Advances in Mechanisms of Cancer Invasion and Metastasis (Isaiah J. Fidler)
From Slave to Master: The Biological Events During Melanoma Development and Progression (Meenhard Herlyn)
Biology and Genetics of Myelodysplastic Syndrome
Topoisomerases: Structure and Function
Progress in Antibody Therapy of Human Cancer (Nancy Hynes)
Animal Models for Chemoprevention (Michael N. Gould)

Cancer Epidemiology, Biomarkers & Prevention is published monthly, one volume annually, by the American Association for Cancer Research, Inc. (AACR). Except for members of the AACR, all subscriptions are payable in advance to AACR, Subscription Office, P. O. Box 11806, Birmingham, AL 35202 [Telephone: (800) 633-4933 or (205) 995-1567; FAX: (205) 995-1588], to which all business communications, remittances (in United States currency or its equivalent), and subscription orders should be sent. In Japan, send orders and inquiries to (sole agent): USACO Corporation, Tsutsuji Bldg., 13-12, Shimibashi 1-chome, Minato-ku, Tokyo 105, Japan; Tel. (03) 502-6471. Nonmembers of the AACR within the United States may subscribe to Volume 6 (1997) of Cancer Epidemiology, Biomarkers & Prevention at the rate of $95 (individual nonmembers) or $245 (institutional nonmembers), including postage. Institutional and individual nonmembers outside of the United States should add $40 to their respective rates to offset periodicals postage costs, which covers the cost of shipping journals by surface mail. (For faster delivery, expedited mailing rates are available by contacting the AACR Publications Department). Canadian subscribers should add 7% GST. Changes of address notification should be sent 60 days in advance and include both old and new addresses. Member subscribers should send address changes to: Member Services, AACR, Public Ledger Bldg., Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483. Nonmember subscribers should send changes of address to: AACR Subscription Office, P. O. Box 11806, Birmingham, AL 35202. Copies of the journal which are undeliverable because of address changes will be destroyed. Accelerated mailing of all AACR journals to AACR members in Japan is supported by a generous grant from the Banyu Pharmaceutical Company, Tsukuba, Japan.
Notice to Members of the American Association for Cancer Research (AACR)

Officers for 1997–1998

President: Donald S. Coffey, Johns Hopkins University School of Medicine, Baltimore MD 21287-2101
President-Elect: Webster K. Cavenee, Ludwig Institute for Cancer Research, La Jolla, CA 92023-0660
Treasurer: Bayard D. Clarkson, Memorial Sloan-Kettering Cancer Center, New York, NY 10021
Executive Director: Margaret Foti, AACR, Public Ledger Bldg., Suite 826, Philadelphia, PA 19106-3483

Annual Dues
The annual dues of active members of the AACR are $175, $55 of which may be applied toward a subscription to Cancer Epidemiology, Biomarkers & Prevention. Corresponding members of the Association will be charged an appropriate fee to offset periodicals postage costs. Payment of dues and changes of address of members of the Association should be sent promptly to Margaret Foti, Executive Director, AACR, Public Ledger Bldg., Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483; Telephone: (215) 440-9300; FAX: (215) 440-9313.

Submission of Manuscripts
Cancer Epidemiology, Biomarkers & Prevention publishes original research on cancer causation and prevention in humans, linking three previously unintegrated disciplines: epidemiology, biomarkers, and prevention. Topics include descriptive, analytical, biochemical, and molecular epidemiology; the use of biomarkers to study the neoplastic and preneoplastic processes in humans; chemoprevention and other types of prevention trials; and the role of behavioral factors in cancer etiology and prevention. Manuscripts that address individual subjects in any of the three disciplines are welcome as well as manuscripts with an interdisciplinary approach. All submissions undergo peer review. Papers should be sent to: Cancer Epidemiology, Biomarkers & Prevention, AACR Publications Department, Public Ledger Building, Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483. See Instructions for Authors (page i of this issue) for further information concerning submissions.

Back Issues and Single Copy Sales of the Journal
Copies of back stock of the journal may be ordered from AACR Subscription Office, P. O. Box 11806, Birmingham, AL 35202 (Telephone: (800) 633-4931 or (205) 995-1567; FAX: (205) 995-1588). As long as supplies permit, single copies will be sold by this company at $25.00/copy. Orders outside the U.S. add $3.00/copy to offset postage costs.

Advertisements
Advertisement insertion orders and copy must be received one month prior to the date of issue in which the advertisement is to be published. The journal is mailed by approximately the 7th day of the month of issue. Inquiries about advertising should be directed to: M. J. Mrvica Associates, Inc., 2 West Taunton Avenue, Berlin, NJ 08009 [Telephone: (609) 768-9360; FAX: (609) 753-0064].

Copyright and Permissions
Authors who wish to publish in Cancer Epidemiology, Biomarkers & Prevention must formally transfer copyright to the proprietor of the journal, the AACR, Inc. It is understood by this transfer that the authors relinquish all exclusive rights of copyright ownership, including without limitation rights of reproduction, derivation, distribution, sale, and display of the work, in whole or in part, in any and all forms of media now or hereafter known.

Authors who prepared their articles as part of their official duties as employees of the U.S. Federal Government are not required to transfer copyright to the AACR, Inc., since these articles are considered to be in the public domain. In the case of articles supported by federal grants or contracts, copyright transfer to the AACR, Inc., is required. The Federal government may retain a nonexclusive license to publish or republish such material.

The Journal will routinely allow authors (or others with the permission of the authors) to include select parts of a copyrighted article in reviews, books, or subsequent papers, upon written request to the AACR Director of Publications. Requests to reproduce an article in its entirety will be considered on an individual basis and permission may be granted contingent upon payment of an appropriate copyright fee. All reproduction requests must include a brief description of intended use and a stamped, self-addressed envelope. Third parties should obtain the approval of the authors before corresponding with the AACR.

Those who wish to photocopy articles should contact the AACR Publications Department [Telephone: (215) 440-9300; FAX: (215) 440-9355].

No responsibility is accepted by the Editors, by the AACR, Inc., by the American Society of Preventive Oncology, or by Cadmus Journal Services for the opinions expressed by contributors or for the content of the advertisements.

Cancer Epidemiology, Biomarkers & Prevention is indexed in Chemical Abstracts, Current Contents/CM®, Index Medicus, MEDLINE, and the BIOSIS Previews® Database. This journal is printed on acid-free paper.

Cancer Epidemiology, Biomarkers & Prevention (ISSN 1055-9965) is published monthly by the American Association for Cancer Research, Inc., Public Ledger Bldg., Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483 for $55 annually for members, $95 for individual nonmembers, and $245 for institutional nonmembers. Periodicals postage paid at Philadelphia, PA and additional mailing offices. POSTMASTER: Send address changes to AACR Subscription Office, P. O. Box 11806, Birmingham, AL 35202. Copyright 1997 by the American Association for Cancer Research, Inc. Printed in the U.S.A.
Division Director and Senior Vice President for the Division of Public Health Sciences

The Fred Hutchinson Cancer Research Center invites applications and nominations for the position of Division Director and Senior Vice President for their Public Health Sciences Division. The mission of the Center is to investigate the causes of cancer, explore methods to cure and prevent cancer, and to disseminate the results of its research. The Division of Public Health Sciences includes over 65 full and part-time scientists, with studies in biostatistics, cancer biology, cancer prevention and control, epidemiology and areas of interdisciplinary research.

The Division Director reports directly to the President and Director of the Center, and is responsible for administrative and scientific guidance of activities within the Division. These responsibilities include Divisional strategic planning, recruitment, space allocation, oversight of more than 650 faculty and staff, and formation of the divisional annual budget of approximately $40 million.

A joint appointment in the School of Public Health and Community Medicine as a Research Professor is possible depending on interests and qualifications.

Qualifications for the position include an international reputation for scientific excellence and accomplishments with the appropriate educational background. The Division Director is expected to have a peer-review approved research program, and experience in leading a scientific faculty.

Compensation is dependent upon experience.

The Fred Hutchinson Cancer Research Center and the University of Washington are equal opportunity/affirmative action employers. Both institutions are building culturally diverse faculty and strongly encourage applications from female and minority candidates.

Please send letters of application with curriculum vitae to: Director Position LY-301, 1100 Fairview Avenue N., PO Box 19024, Seattle, WA 98109-1024. Submissions must be received by January 31, 1998.

Cancer Epidemiology, South Carolina Cancer Center. The SCCC seeks two cancer epidemiologists to help the Center in its public health research mission. Qualifications: MD-Ph.D. with a national reputation of a distinguished cancer related epidemiologic research, preferably in the fields of breast and childhood cancer. Experience in developing and implementing cohort trials and international experience preferred. Please send a letter of application and CV to William G. Woods, Director, SCCC, Richland Memorial Hospital, Columbia, SC 29203. The University of South Carolina and Richland Memorial Hospital are equal opportunity, affirmative action employers.
Announcement from the American Association for Cancer Research

New Editor-in-Chief for *Cancer Epidemiology, Biomarkers & Prevention*

The Board of Directors is pleased to announce the appointment of Dr. Frederick P. Li of the Dana-Farber Cancer Institute, Boston, Massachusetts, as Editor-in-Chief of *Cancer Epidemiology, Biomarkers & Prevention*, effective September 1, 1997. Dr. Li replaces Dr. Pelayo Correa who has accepted new responsibilities as the Director of the Stanley S. Scott Cancer Center at Louisiana State University Medical Center. The AACR congratulates Dr. Correa on this appointment and extends its appreciation for his distinguished service as Editor-in-Chief of *Cancer Epidemiology, Biomarkers & Prevention* since its founding in 1991.

Effective immediately, the administrative office for *Cancer Epidemiology, Biomarkers & Prevention* is now at the AACR Headquarters in Philadelphia, PA. Manuscript submissions and correspondence regarding the journal should be directed to:

*Cancer Epidemiology, Biomarkers & Prevention*
AACR Publications Department
Public Ledger Building, Suite 826
150 South Independence Mall West
Philadelphia, PA 19106-3483
Phone: (215) 440-9300
Fax: (215) 440-9355
E-mail: pubs@aacr.org

A new review system is being developed for manuscripts submitted to *Cancer Epidemiology, Biomarkers & Prevention*. Complete details will be published in a future issue.
