Annual Dues
The annual dues of active members of the AACR are $175, $55 of which may be applied toward a subscription to Cancer Epidemiology, Biomarkers & Prevention. Corresponding members of the Association will be charged an appropriate fee to offset periodicals postage costs. Payment of dues and changes of address of members of the Association should be sent promptly to Margaret Foti, Executive Director, AACR, Public Ledger Bldg., Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483.

Submission of Manuscripts
Cancer Epidemiology, Biomarkers & Prevention publishes original research on cancer causation and prevention in humans, linking three previously unintegrated disciplines: epidemiology, biomarkers, and prevention. Topics include descriptive, analytical, biochemical, and molecular epidemiology; the use of biomarkers to study the neoplastic and preneoplastic processes in humans; chemoprevention and other types of prevention trials; and the role of behavioral factors in cancer etiology and prevention. Manuscripts that address individual subjects in any of the three disciplines are welcome as well as manuscripts with an interdisciplinary approach. All submissions undergo peer review. Papers should be sent to: Cancer Epidemiology, Biomarkers & Prevention, AACR Publications Department, Public Ledger Building, Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483. See Instructions for Authors (page i of this issue) for further information concerning submissions.

Back Issues and Single Copy Sales of the Journal

The Journal will routinely allow authors (or others with the permission of the authors) to include select parts of a copyrighted article in reviews, books, or subsequent papers, upon written request to the AACR Director of Publications. Requests to reproduce an article in its entirety will be considered on an individual basis and permission may be granted contingent upon payment of an appropriate copyright fee. All reproduction requests must include a brief description of intended use and a stamped, self-addressed envelope. Third parties should obtain the approval of the authors before corresponding with the AACR.

Molecular Epidemiologist Faculty Position
UCSF Cancer Center
Cancer Research Institute

The UCSF Cancer Center has an opening for a genetic epidemiologist at the Assistant or Associate professor level. Applicants should have experience in studying the prevalence and penetrance of cancer susceptibility genes, interactions between genes and environmental factors and/or genotype/phenotype interactions. The successful applicant will occupy laboratory space in the new UCSF Cancer Research building and will collaborate with a multi-disciplinary cancer genetics program that is currently developing new methods for detecting mutations and gene re-arrangements in tumor specimens, and is developing a state-of-the-art facility for molecular diagnostics. Minimum requirements include a MD or PhD in genetics, epidemiology or a related field, and evidence of independent research capability based on publications and extramural funding. UCSF is an affirmative action/equal opportunity employer. The University undertakes affirmative action to assure equal employment opportunity for underutilized minorities and women, for persons with disabilities and for Vietnam-era veterans and special disabled veterans.

Interested applicants should send a curriculum vitae, a short statement of research plans, and the names of at least three references to:
