The way to silence a killer is to make some noise.

Cancer kills more than 1,500 people every day. And it is the leading cause of death by disease in our children. Yet, for every ten dollars in taxes the government collects, it spends only one penny on cancer research. We can do better. For the more than eight million Americans now living with cancer - and for the millions more at risk - we must do better. THE MARCH is a momentous event uniting people in Washington, DC, and in communities across the nation. We are coming together to make cancer the nation's #1 research priority. We are raising our voices to say No more... No more suffering... No more excuses... No more cancer. Please join us.

THE SIDNEY KIMMEL FOUNDATION for CANCER RESEARCH

The AACR is a proud supporter of The March. For information about AACR members' March-related activities, please call the AACR Office at (215) 440-9300.
Notice to Members of the American Association for Cancer Research (AACR)

Officers for 1998–1999
President: Webster K. Cavenee, Ludwig Institute for Cancer Research, La Jolla, CA 92033-0660
President-Elect: Daniel D. Von Hoff, Institute for Drug Development, San Antonio, TX 78245
Treasurer: Bayard D. Clarkson, Memorial Sloan-Kettering Cancer Center, New York, NY 10021
Executive Director: Margaret Foti, AACR, Public Ledger Bldg., Suite 826, Philadelphia, PA 19106-3483

Annual Dues
The annual dues of active members of the AACR are $175, $55 of which may be applied toward a subscription to Cancer Epidemiology, Biomarkers & Prevention. Corresponding members of the Association will be charged an appropriate fee to offset periodicals postage costs. Payment of dues and changes of address of members of the Association should be sent promptly to Margaret Foti, Executive Director, AACR, Public Ledger Bldg., Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483; Telephone: (215) 440-9300; FAX: (215) 440-9313.

Submission of Manuscripts
Cancer Epidemiology, Biomarkers & Prevention publishes original research on cancer causation and prevention in humans, linking three previously unintegrated disciplines: epidemiology, biometrics, and prevention. Topics include descriptive, analytical, biochemical, and molecular epidemiology; the use of biometrics to study the neoplastic and preneoplastic processes in humans; chemoprevention and other types of prevention trials; and the role of behavioral factors in cancer etiology and prevention. Manuscripts that address individual subjects in any of the three disciplines are welcome as well as manuscripts with an interdisciplinary approach. All submissions undergo peer review. Papers should be sent to: Cancer Epidemiology, Biomarkers & Prevention, AACR Publications Department, Public Ledger Building, Suite 826, 150 South Independence Mall West, Philadelphia, PA 19106-3483. See Instructions for Authors (page i of this issue) for further information concerning submissions.

Back Issues and Single Copy Sales of the Journal
Copies of back stock of the journal may be ordered from AACR Subscription Office, P. O. Box 11806, Birmingham, AL 35202 [Telephone: (800) 633-4931 or (205) 995-1567; FAX: (205) 995-1588]. As long as supplies permit, single copies will be sold by this company at $25.00/copy. Orders outside the U.S. add $3.00/copy to offset postage costs.

Advertisements
Advertisement insertion orders and copy must be received one month prior to the date of issue in which the advertisement is to be published. The journal is mailed by approximately the 7th day of the month of issue. Inquiries about advertising should be directed to: M. J. Mrvica Associates, Inc., 2 West Taunton Avenue, Berlin, NJ 08009 [Telephone: (609) 768-9360; FAX: (609) 753-0064].

Copyright and Permissions
Authors who wish to publish in Cancer Epidemiology, Biomarkers & Prevention must formally transfer copyright to the proprietor of the journal, the AACR, Inc. It is understood by this transfer that the authors relinquish all exclusive rights of copyright ownership, including without limitation rights of reproduction, distribution, derivation, sale, and display of the work, in whole or in part, in any and all forms of media now or hereafter known.

Authors who prepared their articles as part of their official duties as employees of the U.S. Federal Government are not required to transfer copyright to the AACR, Inc., since these articles are considered to be in the public domain. In the case of articles supported by federal grants or contracts, copyright transfer to the AACR, Inc., is required. The federal government may retain a nonexclusive license to publish or republish such material.

The Journal will routinely allow authors (or others with the permission of the authors) to include select parts of a copyrighted article in reviews, books, or subsequent papers, upon written request to the AACR Director of Publications. Requests to reproduce an article in its entirety will be considered on an individual basis and permission may be granted contingent upon payment of an appropriate copyright fee. All reproduction requests must include a brief description of intended use and a stamped, self-addressed envelope. Third parties should obtain the approval of the authors before corresponding with the AACR.

Those who wish to photocopy articles should contact the AACR Publications Department [Telephone: (215) 440-9300; FAX: (215) 440-9355].

No responsibility is accepted by the Editors, by the AACR, Inc., by the American Society of Preventive Oncology, or by Cadmus Journal Services for the opinions expressed by contributors or for the content of the advertisements.

Cancer Epidemiology, Biomarkers & Prevention is indexed in Chemical Abstracts, Current Contents/Clinical Medicine, MEDLINE, and the BIOSIS Previews Database. This journal is printed on acid-free paper.
ASSISTANT/ASSOCIATE PROFESSOR in
BEHAVIORAL CANCER CONTROL RESEARCH

The Division of General Internal Medicine and Health Care Research at Case Western Reserve University (CWRU) School of Medicine and the Ireland Cancer Center at CWRU and University Hospitals of Cleveland, an NCI-Designated Comprehensive Cancer Center, invite applications for a research track faculty position from social science or health services researchers with an emphasis on health education. This position is being made available because of the tremendous growth at the Cancer Center in behavioral cancer research, which includes patient decision-making; cancer patient survivorship and quality of life; and ethical issues in genetic testing and cancer care.

The successful applicant will possess a doctoral degree in a relevant social or behavioral science discipline (e.g., health education, psychology, public health, sociology, or anthropology). Strong skills are required in qualitative, quantitative, or multimethod research approaches; knowledge of computer applications; and experience with primary data collection. The candidate must have a demonstrated ability to be an independent investigator and should desire to work in a highly collaborative multidisciplinary setting. Appointment includes a start-up support package.

Applicants should submit a letter of interest, current Curriculum Vitae, and names of three references to: Laura A. Siminoff, Ph.D., 10900 Euclid Avenue (WG37), Cleveland OH 44106-4961.

CWRU is an AA/EEO/ADA employer and encourages applications from women and minorities.
SPECIAL EVENTS

Topics with Confirmed Speakers/Organizers in Parentheses

EDUCATIONAL SESSIONS AND METHODS WORKSHOPS (SATURDAY AFTERNOON, APRIL 10, 1999)
To Be Announced

OFFICIAL OPENING EVENT (SUNDAY MORNING, APRIL 11, 1999)
Presidential Address (Webster K. Cavenee)
Plenary Session: New Frontiers in Cancer Research
Genetics (Robert A. Weinberg)
Immunology and Vaccines (Lloyd J. Old)
Therapeutics and Translational Research (Judah Folkman)
Hormonal Intervention and Prevention (C. Kent Osborne)
AACR-Pezcoller International Cancer Research Award Lecture
Special Lecture (James D. Watson)

SYMPOSIA
Drug Discovery: From Basic Science to the Clinic (Daniel D. Von Hoff)
Animal Models for Human Cancer: Recent Developments and New Challenges

stem and gene therapy (Cynthia E. Dunbar)
Basic and Clinical Approaches to Lung Cancer (David P. Carbone)
Basic and Clinical Approaches to Ovarian Cancer (Robert C. Bost, Jr.)
Hormonally Related Tumors - Basic and Clinical Aspects (Bert W. O’Malley and Marc E. Lippman)

Dendritic Cell Vaccines
Topoisomerasar in Carcinogenesis and Cancer Treatment (Leroy F. Liu)
Infectious Agents and Cancer (Nancy E. Mueller)
Advances in Chemoprevention (Raymond N. Dubois)
Diet and Cancer (John D. Potter)
Signal Transduction
Genomics, Genetics, and New Approaches to Cancer (Richard D. Klausner)
Confronting the Tobacco Epidemic (Virginia L. Ernster)
Apoptosis (Craig B. Thompson)
Telomeres, Centromeres, and Chromosomal Instability (Carol W. Greider)
Genetic Instability, DNA Damage, and Checkpoint Regulation (Geoffrey Wahl)
Invasion, Metastasis, and Angiogenesis (Isaiah J. Fidler)
DNA Repair
Ubiquitin and Protein Degradation
Gene-Environment and Gene-Gene Interactions (Kenneth Olden and Margaret R. Spitz)
Replication and the Cell Cycle
Transcriptional Regulation and Cancer (Lorraine J. Gudas)
Drug Resistance and Cell Cycle Gene Abnormalities (Joseph R. Bertino)
Late-Breaking Science (Speakers To Be Selected Shortly Before the Meeting)

"MEET-THE-EXPERT" SUNRISE SESSIONS
Drug Resistance
Molecular Detection of Minimal Residual Disease
Cancer Screening
Microsatellite Instability
Design of Chemoprevention Trials
Genetic Imprinting
Molecular Signaling of CML
Cancer Metastasis: Cellular and Clinical Studies
Embryonal Stem-Cell-based Technology
bcl2: Its Family and Modification
Apoptosis and Chemotherapy
Caspases
Replicative Senescence
DNA Damage and Checkpoint Control
Yeast Systems for Drug Discovery
Drug Design and Development
Molecular Imaging Techniques
Molecular Cytogenetics
Genetic Determinants of Prostate Cancer
Chromatin
p53 Gene Therapy-mediated Radio/Chemosensitization
TGFβ and Colon Cancer
Inherited Susceptibility to Breast and Ovarian Cancer
VEGF
Genetics of Multiple Endocrine Neoplasia (MEN)
Differentiation Therapy
Small Molecule Therapeutics
Molecular Processes in DNA Repair after Irradiation
Integration of Biological Agents into Chemotherapy
New Therapeutic Agents
myc
AIDS-related Malignancies
Molecular Genetics of Colon Cancer
Behavioral Oncology
Mdm2
Origins of Melanoma
Natural Agents and Chemoprevention
Tumor Vaccine Therapy
Genetics of Wilms Tumor
Biology of Premalignant Lesions

Pre and Postdoctoral fellowships in behavioral science education for cancer prevention and control. The Center for Health Promotion Research and Development at the University of Texas-Houston School of Public Health invites applications for its pre and postdoctoral National Cancer Institute-funded fellowships. Fellows will acquire skills and experience in identifying risk factors, and developing and evaluating interventions in school, community and clinical settings. Predoctoral fellows receive $11,900, tuition, and other benefits. Postdocs receive $30,000+, tuition, and benefits. Fellowships are up to three years and offer opportunities to work with research teams on all phases of project development and implementation, write papers, take courses, and write proposals. Preferred applicants demonstrate commitment to working with under-served populations. **Deadlines:** Predocs – 10/1/98, 4/1/99. Postdocs – 12/21/98, 4/1/99. Further information, Dr. Patricia Dolan Mullen, CHPRD, UT-Houston SPH, Box 20186, Houston 77225, pdmullen@chprd.sph.uth.tmc.edu or the web page http://www.sph.uth.tmc.edu/chprd/. EOE/AA/Smoke-Free. Minorities encouraged to apply.
BEHAVIORAL SCIENTIST

CANCER PREVENTION AND CONTROL

Assistant/Associate Professor
University of Kansas Medical Center

An immediate opening exists in the University of Kansas School of Medicine, Department of Preventive Medicine and Kansas Cancer Institute for a tenure track Behavioral Scientist. Join a growing team of federally funded researchers working in breast cancer, pain management, smoking cessation, and other cancer prevention and control areas. The Kansas Cancer Institute is home to the Cancer Information Service and the statewide cancer registry. The Department of Preventive Medicine is a dynamic, multidisciplinary group of 21 faculty.

Collaborative research opportunities also exist with the Center on Aging, the newly created Center for Health Care Research, the Department of Health Services Administration, and the Schools of Nursing and Allied Health.

In addition, the Behavioral Scientist will play a role as a faculty member in Preventive Medicine’s innovative statewide Master of Public Health Program. Responsibilities will include teaching a core course and mentoring graduate students, and maintaining an active program of research.

Qualifications:

- Doctoral degree in area related to behavioral sciences and health education
- Academic experience with track record of collaboration, publications, funded research, and teaching.

Send a cover letter, CV and three references to Stanley A. Edlavitch, Ph.D., MA. Review of applications and nominations will begin immediately and continue until a suitable candidate is found.
