

Correction

In an article (1) in the November 2005 issue, there was an error in the labeling of alleles presented for *ERCC1* 19007. In the Methods and Results sections, *ERCC1* c19007t should read *ERCC1* t19007c. In Table 2, the labels were reversed for the *ERCC1* 19007 T and C alleles, so the CC genotype should be TT, and vice versa. Because this only entails a labeling error, and comparisons in Tables 3–5 reflect those of rare versus common genotypes, this change does not affect the interpretation of the results.
