Editorial

A Monthly Journal
Pelayo Correa

Research Articles

Testicular Cancer and Parental Use of Fertilizers in Agriculture
Petter Kristensen, Aage Andersen, Lorentz M. Irgens, Anne S. Bye, and Nils Vagstad

Pesticide Appliers with Mixed Pesticide Exposure: G-banded Analysis and Possible Relationship to Non-Hodgkin’s Lymphoma
Vincent F. Garry, Robert E. Tarone, Leslie Long, Jack Griffith, John T. Kelly, and Barbara Burroughs

Obesity and Risk of Renal Cell Cancer

Attributable Risks for Pancreatic Cancer in Northern Italy
Esteve Fernandez, Carlo La Vecchia, and Adriano Decarli

Papillary Apocrine Change of the Breast: Associations with Atypical Hyperplasia and Risk of Breast Cancer
David L. Page, William D. Dupont, and Roy A. Jensen

A Molecular and Epidemiological Study on Bladder Cancer: p53 Mutations, Tobacco Smoking, and Occupational Exposure to Asbestos
Annamaria Kannio, Maaret Ridenpaa, Heikki Koskinen, Timo Partanen, Sisko Anttila, Yrjö Collan, Eino Hietanen, Harm Vainio, and Kirsti Husgafvel-Pursiainen

Prevalence of Precancerous Lesions of the Stomach in Venezuela
Nubia Muñoz, Ikuko Kato, Simon Peraza, Gladys Lopez, Elsa Carrillo, Hernan Ramirez, Jorge Vivas, Denis Castro, Victor Sanchez, Olga Andrade, Eva Buiaatti, and Walter Oliver

Nitrite, N-Nitroso Compounds, and Other Analytes in Physiological Fluids in Relation to Precancerous Gastric Lesions

Decreased Levels of 13-Hydroxyoctadecadienoic Acid (13-HODE) Dehydrogenase in Neoplastic Tissue of Human Colon Biopsies
Ann L. Silverman, Joel C. Bronstein, Sergey Krymgold, Devendra Kahlon, and Arthur W. Bull

Variability of Molecular Biomarker Measurements from Nonlinear Calibration Curves
Stephen J. Gange, Alvaro Muñoz, Jia-Sheng Wang, and John D. Groopman

Effects of Soya Consumption for One Month on Steroid Hormones in Premenopausal Women: Implications for Breast Cancer Risk Reduction
Lee-Jane W. Lu, Karl E. Anderson, James J. Grady, and Manubai Nagamani

Continued on Next Page
Impact of a Mailed Intervention on Annual Mammography and Physician Breast Examinations among Women at High Risk of Breast Cancer
Jean L. Richardson, Gencie T. Mondrus, Kathleen Danley, Dennis Deapen, and Thomas Mack
